Subject: Emphasizing Extracurricular Achievements

Dear Committee Members,

I am writing to express the importance of recognizing extracurricular achievements in the Indian education system. As a student passionate about sports, music, and community service, I believe that these activities play a crucial role in shaping a well-rounded individual.

Extracurricular activities help in developing skills like teamwork, leadership, time management, and creativity. They provide a platform for students to explore their interests beyond academics and discover their strengths and talents.

In the Indian context, where academic excellence is often the primary focus, it is essential to acknowledge the value of extracurricular achievements. These activities not only enhance a student's overall personality but also contribute to their holistic development.

I urge the committee to consider and appreciate extracurricular accomplishments alongside academic performance when evaluating student applications.
